## Enter into the fleeting realm of scent...

Based in tropical Far North Queensland SHADY GROVE offers a wide range of pure essential oils and natural products. All preparations are lovingly handmade from high quality natural materials, do not contain animal products and have not been tested on animals. We hope you enjoy the beneficial effects of these products and welcome your feedback as we endeavour to provide high quality products at reasonable prices.

How to Use essential oils.

**Bath** - Add a few drops (2-5) of essential oil or blend to a full and not too hot bath. Agitate the water as you add the oils to help them disperse. Wait a few minutes to allow the oils to penetrate before slipping in to relax and cleanse. You can also make up bath oils by diluting essential oils in vegetable oil with 2 - 5 drops essential oil to 2 tablespoons of vegetable oil.

**Massage** - To make your own personalised massage oil simply use 2-5 drops essential oil and blend to 2 tablespoons vegetable oil. The recommended ratio is 3% essential oil in a carrier oil. A ratio of 1% essential oil to carrier is recommended for expecting mothers, children and sensitive skins. Good carrier oils are sweet almond, apricot kernel, safflower, avocado, jojoba or wheatgerm oil. (1ml = approx 25 drops)

**Inhalation** - Oil burners, vapourisers and diffusers are excellent ways to create a pleasant smell and feeling in a room and also disperse the oils into the air so that they are inhaled and gently absorbed. A few drops on a handkerchief or tissue can also be inhaled to increase the effect as well as steam inhalation. A few drops in a basin of hot water and towel over the head, inhale the steam to help clear the head, sinuses and chest.

**Cosmetics and Preparations** - Essential oils can be added to base ingredients to create your own wonderful natural skin care products and other useful preparations. They can be used in many applications: antiseptic wash, wound healing creams, moisturisers, cleansers, body washes, deodorants, insect repellent, mould deterrents, shampoo, household cleaners, laundry... and much much more!

## Essential Oil Safety

To get the greatest benefits from essential oils it is very important to use them appropriately. They are very strong plant extracts and extremely toxic if ingested. Do not take internally unless recommended by a qualified aromatherapist or health practitioner. It is recommended to dilute essential oils in a carrier oil (vegetable oils) before applying to the skin.

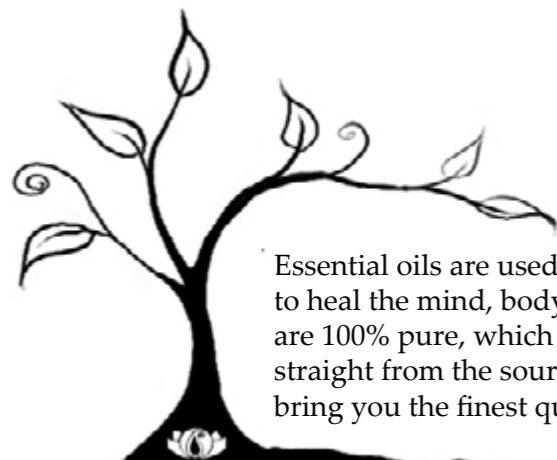

A ratio of 1-5% essential oil in a carrier oil or cosmetic base is recommended depending on the oils used and the application. 1ml = approx 25 drops

Keep bottles in a cool dark place and keep out of reach of children. Some people may have sensitivities to some oils, if irritation occurs wipe the area with vegetable oil. Do not use water as oils are not soluble in water and it can make things worse. If poisoning occurs seek medical advice immediately.

Some oils are not to be used during pregnancy. Please look into what you can and cannot use if you are pregnant.

Some citrus oils increase photosensitivity in the skin and may cause reactions if worn in the sun, Oils to avoid when in direct sunshine include bergamot, petitgrain, lemon, lime, orange and grapefruit.

Shady Grove does not take responsibility for the misuse of our products, the information given is a guide only and should not replace advice from a professional qualified aromatherapist, or health practitioner. Please use essential oils with caution. Keep out of reach of children and dilute before applying to skin.

## 100% Pure Essential Oils

Essential oils are used throughout the world and throughout history for cosmetics, to heal the mind, body and spirit and because they smell divine! Our essential oils are 100% pure, which means no additives or fixatives are added, just pure oil extracts straight from the source: mother nature. They are sourced from around the world to bring you the finest quality and best prices available.

## Precious Oils and Dilutions

Due to the high cost of production of these precious and rare oils, we offer a diluted alternative which makes them affordable yet still potent and effective. These absolutes have been diluted to 3% in organic Jojoba Oil which is long lasting carrier oil and safe to use straight on the skin.

ESSENTIAL OIL	BOTANICAL NAME	6ML.	25ML.	50ML.
CHAMOMILE GERMAN	<i>Matricaria recutita</i>	66.00	220.00	385.00
CHAMOMILE ROMAN (Organic)	<i>Anthemis nobilis</i>	85.00	250.00	250.00
EVERLASTING	<i>Helichrysum italicum</i>	93.00		
JASMINE ABSOLUTE	<i>Jasmine officinale</i>	140.00		
NEROLI BRIGADE	<i>Citrus aurantium</i>	165.00

RELAXING	<i>Lavender, orange, sandalwood, grapefruit, vetiver in organic safflower</i>		11.00

## Vegetable Oils

Vegetable oils are used to dilute essential oils so that they are safe and easily absorbed into the skin. They are also very good for healing, moisturising and balancing the skin.

Essential oils are usually diluted by 1-5% in vegetable oil depending on which oils your using, the and the age of the user. 1ml = 25 drops

VEGETABLE OIL	25ml	50ml.	100ml	200ml.	1Ltr	5Ltr
SWEET ALMOND Pure		5.00	8.00	12.00	30.00	105.00

JOJOBA Organic	5.00	8.00	12.00	20.00	80.00	
NEEM		5.00	8.00	10.00	25.00	
ROSEHIP Organic	12.00	18.00	30.00	50.00		
SAFFLOWER Organic		5.00	8.00	12.00	30.00	
WHEATGERM Virgin		8.00	12.00	20.00	80.00	

## Infused Oils

An infused oil consists of a carrier oil that has been infused with one or more herbs. The benefit to using an infused oil as opposed to a plain carrier oil is that the infused oil will contain the therapeutic properties of both the carrier oil and the herbs that were infused into the oil.

These oils have wonderful healing properties and can be used undiluted on the skin.

(Arnica can be used on unbroken skin only)

HEALING OILS	25ml	50ml.	100ml.	200ml
ARNICA Organic	8.50	13.50	20.50	33.00
CALENDULA Organic	8.50	13.50	20.50	33.00
